

MATH-3600-Probability and Statistics-Section A (3 Credit hrs, NH 3035)

INSTRUCTOR : Dr. ANDREAS LAZARI-NH 2214 or NH 2072A (Phone#s: 229-333-7154 or 229-259-2042)

OFFICE HOURS: Monday and Wednesday 11:00am-11:45am
Tuesday and Thursday 12:30pm-1:15pm
ANY OTHER TIME - BY APPOINTMENT

Course Description : Prerequisite: Either MATH 2262 or MATH 1262, with a "C" or higher. Descriptive statistics, probability distributions for discrete and continuous random variables, statistical inference, one-way analysis of variance, and regression analysis.

TEXT : Introduction to Practice of Statistics 9th Edition by Moore, McCabe, Craig.
(Publisher: Freeman and Company) ISBN: 9781319013387

COURSE COVERAGE: Selected Topics from Chapters 1 - 11.

EXAMS : THREE EXAMS AND A FINAL. THE FINAL EXAM IS COMPREHENSIVE.

PROJECTS : Three projects. The projects are done in groups(usually three students). I usually assign groups the day after the first test. If you are not in class that day you will not have a group, which means you will not be able to do the first project. (The last project is presented in class-Power Point presentation is required)

Calculator: TI-30X, TI-30X IISII, TI-34, or equivalent calculator approved by the professor.

EVALUATION: EXAM #1 100 POINTS

EXAM #2	100
EXAM #3	100
PROJ/REPORT	50
FINAL PROJ/REPORT	50
FINAL EXAM	100

TOTAL POINTS 500

GRADES :	A 450 - 500	90 - 100%
	B 400 - 449.99	80 - 89.99%
	C 350 - 399.99	70 - 79.99%
	D 300 - 349.99	60 - 69.99%
	F 0 - 299.99	0 - 59.99%

VSU GENERAL EDUCATION OUTCOMES

3. Students will use computer and information technology when appropriate.
4. Students will express themselves clearly, logically, and precisely in writing and in speaking, and they will demonstrate competence in reading and listening.
5. Students will demonstrate knowledge of scientific and mathematical principles and proficiency in laboratory practices.
7. Students will demonstrate the ability to analyze, to evaluate, and to make inferences from oral, written, and visual materials.

STUDENT LEARNING OUTCOMES :

- Students will be able to produce and interpret descriptive statistics, graphically, numerically, and in tabular format.(3,5,7)
- Students will be able to calculate and interpret probability using union and intersection rules.(5,7)
- Students will demonstrate understanding of the concepts of random variable and distribution.(4,5,7)
- Students will be able to use technology to calculate probabilities with the normal and binomial distributions.(3,5)
- Students will be able to produce a confidence interval estimate from a given sample.(3,4,5,7)
- Students will demonstrate understanding of the rationale of hypothesis testing.(4,5)
- Students will be able to carry out - with and without the aid of technology - a variety of hypothesis tests, including Z-tests, t-tests, Analysis of Variance and interpret the meaning of the results.(3,4,5,7)
- Students will be able to use correlation analysis to determine the strength of a linear relationship between bivariate data and apply linear regression to describe

this relationship. (3,4,5,7)

- Students will demonstrate understanding of the use of probabilistic models in analysis and design. (4,5,7)
- Students will demonstrate understanding of the basics of probability theory. (5,7)
- Students will be able to introduce commonly used probabilistic models and their applications. (3,4,5,7)

All of these objectives will be assessed quantitatively via homework and tests, and qualitatively via class discussion. Additionally, the objectives related to statistics will be assessed via group projects with written reports and presented to the class. (3,4,5,7)

GENERAL POLICIES:

1. **There are NO MAKE-UP EXAMS. IF YOU HAVE A GOOD REASON FOR MISSING AN EXAM, (i.e. HOSPITALIZATION AND DEATH IN THE FAMILY), YOU MUST PROVIDE PRIOR NOTICE AND UPON VERIFICATION I WILL ALLOW YOU TO COUNT YOUR FINAL EXAM TWICE.**
2. Withdraw before midterm and you get a WP grade.
Withdraw after midterm for **NO GOOD REASON** and you get **WF** grade.
3. Don't cheat on exams. Procedures for academic dishonesty, which will result in an F in the course and possibly dismissal from VSU, will be followed if you cheat.
4. Attendance is expected for every scheduled class meeting. You are expected to come on time and stay for the full period. If you are not in class, you are still responsible for the lecture, any assignments, and any information that was given in class. Be certain to get the information from another student in the class. As stated in the VSU catalog, if you miss more than 20% of our class meetings (6 days), then you will receive an F in the course. Three tardies will count as one absence.
5. Laptops, tablets, cell phones, headphones, and other electronic devices may not be used in class. **EXCEPTION: After getting permission from Dr. Lazari, you may take a seat in the front row only to use your electronic device.**
6. Cell phones must be turned off and put away during class, and exams. Cell phones may not be used as calculators during class, and exams. If you expect an emergency call during class you need to talk to Dr. Lazari. If a cell phone rings, it will be collected and returned to the Student Affairs Office.
7. **CLASS NOTES:** You are responsible for getting the material from the internet <http://blog.valdosta.edu/mathonline>, before class.
8. Cell Phones. No cell phones should be used during class, text messaging, or any other form. If you expect an emergency call during class you need to talk to Dr. Lazari. If a cell phone rings, it will be collected and returned to the Student Affairs Office.
9. **No Apple Watches** are allowed during Exams. Please turn them off and place them in your book bag.
10. Students with disabilities who are experiencing barriers in this course may contact the Access Office for assistance in determining and implementing reasonable accommodations. The Access Office is located in University Center, Entrance 5, Room 4136 1500 N. Patterson St., Valdosta, Georgia 31698. The phone numbers are 229-245-2498 (V), 229-375-5871 (VP), and 229-219-1348 (TTY). For more information, please visit VSU's Access Office or email: access@valdosta.edu.
11. Valdosta State University (VSU) is committed to creating a diverse and inclusive work and learning environment free from discrimination and harassment. VSU is dedicated to creating an environment where all campus community members feel valued, respected, and included. Valdosta State University prohibits discrimination based on race, color, ethnicity, national origin, sex (including pregnancy status, sexual harassment, and sexual violence), sexual orientation, gender identity, religion, age, national origin, disability, genetic information, or veteran status, in the University's programs and activities as required by applicable laws and regulations such as Title IX. The individual designated with responsibility for coordination of compliance efforts and receipt of inquiries concerning nondiscrimination policies is the University's Title IX Coordinator: Miss. Selenseia Holmes, **Director of Student Conduct & Title IX** Office of Student Affairs | Student Union 3rd Floor | Room 3106, 229.333.5941 ext. 9300.
12. **SOI Statement:** At the end of the term, all students will be expected to complete an online Student Opinion of Instruction survey (SOI) that will be available on Banner. Students will receive an email notification through their VSU email address when the SOI is available (generally at least one week before the end of the term).
13. **Coronavirus:** Specific arrangements for students are addressed by the following: Alternate Educational Arrangement (AEA) or accommodations granted to students for Fall 2020 or Spring 2021 due to increased risk for severe illness with COVID-19 will end no later than June 30, 2021. All students are expected to return to their traditional educational arrangement beginning with the start of the Fall 2021 semester. Lack of vaccination is not grounds for a request for continuing an AEA or accommodation. COVID-19 Information

14. **Vaccinations:** All faculty, staff, and students are strongly encouraged to receive the COVID vaccine. Vaccinations are available at no cost by appointment at the Student Health Center on campus. No student, faculty, or staff member should be treated differently based on their vaccination status, and students should not be asked about their status or excluded from any learning opportunity based on their vaccination status. However, representatives from Student Health or those serving as a contact tracer will need to know the vaccination status to determine whether a person should quarantine after close contact with someone who tests positive for COVID.
15. **Mask Wearing and Social Distancing:** Masks or face coverings are not required on campus, but are strongly encouraged for those who are unvaccinated. There may be fully vaccinated people wearing masks as well if they live with someone unvaccinated such as young children, or if they simply choose to continue wearing their mask. We ask that everyone be respectful to those choosing to mask up. There are no social distancing measures in place on campus right now, but those who are unvaccinated are strongly encouraged to social distance whenever possible. As the Blazer Creed articulates, members of the VSU community are expected to live by the high standards of civility, integrity, and citizenship and embrace their responsibility as a member of the Blazer community.
