

# 🤔 Kay's Thoughtful Cure 🤔

My idea of this business is to change the minds of the people who think I shouldn't build a business on the flint river. I can make a decision to change lives in a very bad

When the people drink the water they won't be sick for long. The sickness will only last for a day. We will provide you with some medicine that has a very way of acting, meaning you will be well again and still be able to drink the water.

Our building will be very technologically built. It will be waterproof so just in case of a flood then we will still be safe. It will have a glass structure and a stay in area. Meaning the people will be able to stay overnight just in case they are very sick, or there is a storm. They will be safe within the big building. It will be just like a home with a kitchen rest area, and a bathroom.

The medicine will be called the perfect cure. When someone takes the medicine that person will automatically start feeling better within 5 minutes. No matter what may be in the water the medicine will like permanently clean the water even though it was already taken into the body.
