

low adaptability / analytical skills to make up for course experience
Interviewing skills talk

didn't want to go into public sector due to hoops
you have to jump through. But need a lot of exp
for it. They pay lower but benefits are higher
app process is much more thorough

internship ^a Student Success Center Payroll ADP Oracle → SPSS
keywords that get your resume noticed

used linked in to send thank you letters

how often do you attend conferences? not in any memberships
about to join ASTD (ATD) job will pay for her
professional development be up to date on trends
Wiki use

Wanted to make sure to send out portfolios make sure it's
perfect. copyright issues with materials on Wiki

Developing questions to ask your interviewer depends on what
positions applied for

if you get a recruiter make them do everything for you
besides ty letters, keep track of app process. in excel
glassdoor.com good resource

You need to appear you know what you're doing / confidence
depends on company what culture is they have per. roles
you can meet with to deal with development

might take business classes over Pul-admin. Picked up more
projects with EOD be aware of trends in your
field LMS learning mgt system D2L Blackboard

talked about how to interview compliment them
put effort into researched the company
